

Event Re-caps –

April was a great month for the YMG. We had two great events!

- With the help of the YMG and Iowa One Call, a “round table discussion” was held with area engineers, utility representatives, and local contractors to help brainstorm ways and ideas to help with early utility coordination and detection for various types of projects. We had a very productive session and headway was made in this area
- Secondly, a joint social was held between the YMG and ISU’s ASCE Student Chapter. We met at Pizza Pit on Welch Avenue and had a great turnout from the Student Chapter! This was a great way for us to meet some of the Student Chapter’s board and future engineers! More events with the Student Chapter will be planned in the future!

For pictures from these events, check out “Past Events” on our website! <http://www.centraliowaymg.org/>
